

Budget Planner & Expense Tracker

Quick Start Guide

What's Included

- Excel workbook (.xlsx) -- works with Microsoft Excel and Google Sheets
- Google Sheets copy link -- make a copy and use online
- Release notes and quick-start guide

Google Sheets Version

1. Open the copy link provided in google-sheets-copy-link.txt
2. Click File > Make a copy to save your own version
3. Start from the Start Here tab
4. Use the sheet tabs at the bottom to navigate

Excel Version

1. Open the workbook in Microsoft Excel
2. If you see a yellow security bar, click Enable Editing
3. Start from the Start Here tab
4. Use the sheet tabs at the bottom to navigate

All 7 Tabs

Start Here	Setup instructions, navigation, and checklist
Monthly Budget	Plan income and expenses. See planned vs actual.
Expense Tracker	Log every expense with date, category, payment.
Bills Tracker	Track recurring bills and payment status.
Debt Tracker	Monitor debt payoff progress percentage.
Savings Tracker	Set savings goals and track progress.
Dashboard	Financial overview with summary cards and charts.

Common Notes

- Cells with gray background contain formulas -- do not edit them.
- Only edit white or green-background input cells.
- Keep category names consistent across tabs for formulas to work.
- Clear sample data before entering your own information.
